

## **MICROJ.COM GETS AN UPDATE! With an Updated Clean Look, Easy Navigation, and Streamlined Information Delivery, the New Website is Linked to Micro J's Secure Support Site, MppOnline for End Users and a Live Application Sharing Portal Powered by GoToAssist™**

**Santa Monica, California (August 24, 2004)**, Micro J Systems, Inc. reveals the new face of [www.microj.com](http://www.microj.com). Design features of the new site include complete reorganization and image update, a new site map, convenient online program tours, based on the latest version 8 Micro J software, as well as handy reference guide to previous versions. The new site design is also streamlined for faster page loading, and is optimized for better browser ranking for web surfers who are searching for info about recruiting or staffing software solutions.

Micro J end users can log-in to the secure support site, MppOnline, either by clicking directly through links provided within any of Micro J's version 8 software programs, or by accessing the MppOnline log-in page and using a valid serial number to manually enter the support site.

From the support site end-users will find downloads, report templates, user documentation, FAQ's in the Knowledgebase, and new functionality between end-users and the Micro J support site include, links to online animated tutorials illustrating the way to use the latest features. End users of PcHunter or Tempus version 8 programs may also click a special "check for updates" hotlink in the user help menu, checking for updates will return a message if there has been an improved build, and the user may opt to download and apply the latest release in one click.

Micro J's support site also enables live trouble shooting for tech support reps, online training opportunities powered by Citrix Online's GoToAssist application sharing technology the same technology also powers live sales demonstrations of Micro J's software solutions for prospects.

As part of the site's new organization Micro J's Quarterly e-News letter, "From the Desk of Micro J" will now be archived by volume and issue number, 'Desk of J' subscribers can check for the latest important user information online. The entire site including each issue of the news letter can be key word searched for content with the new Microj.com search engine located at the upper right corner of each web page.

Improvements in technology, organization, navigation, and fresh content updates are expected to boost Micro J's web presence, increase user ease, and also facilitate direct distribution of accurate recruiting software information. The redesigned site went live on Friday August 20th 2004 immediately following the successful roll-out of Micro J's version 8 software.

###

### **About Micro J Systems Inc.**

Micro J Systems is the recognized leader in providing application software and information systems to the domestic and international staffing industry. Micro J was founded in 1983 as an executive search firm. The Information Systems division was created in 1986 to develop and market software specifically designed to automate the practices of staffing (Tempus Fugit) and recruiting (PcHunter) professionals. Micro J is a privately held company.
